Focus session: Secondary mitral regurgitation

Moderated by M Borger, Leipzig |

Saturday 10th October | 12:45–14:15 | Room 111–112

This session focuses on atrial and ventricular secondary mitral regurgitation, highlighting imaging considerations, the role of surgery, transcatheter approaches, patient outcomes and patient selection.

Presentations

- | | |
|-------|--|
| 12:45 | Atrial vs. ventricular secondary MR from an imaging perspective D Drake |
| 13:00 | The role of surgery in atrial functional MR M Castella |
| 13:15 | Eradicating tethering in secondary MR A Calafiore |
| 13:30 | Surgical treatment of moderate secondary MR improves survival K Fattouch |
| 13:45 | Isolated secondary MR: The patient I would send for surgery J Vanoverschelde |
| 14:00 | Isolated secondary MR: The patient I would send for mitralclip or TMVR T Walther |
