

Focus session: Acute type A aortic dissection: A tailored approach for a dynamic disease

Moderated by W Harringer (Braunschweig) and M Borger (Leipzig) |
Saturday 10th October | 14:30–16:00 | Room 116–117

Focus
session

This session focuses on repair of acute type A aortic dissection, with discussion on contemporary available devices to extend the aortic repair beyond classic approaches, the management of patients with malperfusion, and consideration for dissections in children and young adults.

Presentations

- 14:30 Reformulating type A dissection disease through a conceptual classification | B Rylski
- 14:45 When to use frozen elephant trunk | K Tsagakis
- 15:00 Clinical use of uncovered stents to facilitate repair of the arch in type AAD | J Kempfert
- 15:15 How to deal with ongoing cerebral malperfusion | Y Okita
- 15:30 Shaping our surgical approach during type A repair with visceral malperfusion | E Chen
- 15:45 Dissections in children and young adults. Do they deserve a different and more aggressive approach? | D Cameron
