

Focus session: Transcatheter mitral valve replacement in 2020 – Are we there yet?

Moderated by N Van Mieghem (Rotterdam) and A Van Linden (Frankfurt) |
Saturday 10th October | 08:30–10:00 | Room 118–119

Focus
session

This session focuses on the status of transcatheter mitral valve replacement (TMVR), with a discussion of current devices, early clinical results, patient selection, and a comparison with percutaneous mitral valve repair. The session also features a live-in-a-box demonstration of TMVR.

Presentations

- 08:30 TMVR device overview | L Conradi
- 08:45 TMVR clinical results at 1 year and beyond | T Walther
- 09:00 Patient selection in TMVR – explaining design constraints and screening failures | V Badhwar
- 09:15 Live in a box TMVR | P Denti
- 09:30 Percutaneous repair or replacement for FMR | M Taramasso
- 09:45 Surgical MVR in the age of TMVR – Is the AVR history repeating? | H Treede
