

Edwards Lifesciences Presents: Masters of Valve Therapy – Intermediate Mitral Course

November 7-8th, 2022 – Live in Berlin, and broadcast live on Edwards Masters

Dear Colleagues,

On behalf of Edwards Lifesciences and our fellow speakers, we are pleased to invite you to take part in the Hybrid MVT Intermediate course that will be held on November 7-8th, 2022. The course will include some of the world's leading experts in the field who will share their expertise over one and a half days of instruction, debate, and discussion revolving around mitral valve disease. During this course, the following will be included:

- Six live surgeries ranging from 3D endoscopic repair to minimally-invasive mitral and tricuspid repair, during which some of the most advanced technologies will be used.
- Lectures on current and emerging preoperative imaging trends in addition to tips and tricks for minimally- invasive mitral valve access and exposure
- Chordal replacement, annuloplasty rings, resection, and everything else you need to know about mitral valve repair
- Multiple interesting and complex patient case discussions
- Live-in-a-box presentations on transaxillary access and transcatheter valve repair
- Three special lectures and two intriguing interviews about the future of cardiac surgery, the challenge of surgical intervention after transcatheter interventions, and more

Throughout the course, you will not only have the privilege of learning from some of the world's most renowned experts in mitral and tricuspid valve surgery, but you will also have the chance to directly interact with the faculty via Q&A sessions. Although there are no vacancies for face-to-face attendance in Berlin, we encourage you to register online ([click here](#)) to follow the course for free from the comfort of your home or office. We look forward to answering your questions and bringing the most up-to-date scientific information straight to you.

Sincerely,

Professor Volkmar Falk, MD, PhD
