Recent Advancements in RESILIA tissue valve

Venue: Albufeira, Portugal

Saturday November 25th, 2023

- 12:00** Latest generation of biological tissue valve and 7-year data with RESILIA Tissue
- 12:15** Comparison between PERIMOUNT Magna Ease, EDWARDS INTUITY Elite and INSPIRIS RESILIA Valves
- 12:30** Panel discussion

B. Meuris

A. d'Onofrio

Bart Meuris

Cardiothoracic
surgeon at UZ,
Leuven, Belgium

Augusto d'Onofrio

Cardiothoracic
surgeon at University
of Padova, Italy

Important Safety Information:

Use of the EDWARDS INTUITY Elite valve system may be associated with new or worsened conduction disturbances, which may require a Permanent cardiac Pacemaker Implant (PPI). The rate of PPI for the EDWARDS INTUITY Elite valve is within the range reported in the literature for various rapid deployment valves, but higher than that reported for surgical aortic valves. Physicians should assess the benefits and risks of the EDWARDS INTUITY Elite valve prior to implantation. See instructions for use for additional information.

No clinical data are available that evaluate the long term impact of RESILIA tissue in patients

Medical device for professional use. For a listing of indications, contraindications, precautions, warnings, and potential adverse events, please refer to the Instructions for Use (consult eifu.edwards.com where applicable).
