Edwards Masters

Within the realm of medical education programs, Edwards Lifesciences has crafted its educational platform, Edwards Masters, to keep cardiac surgery updated with the latest advancements in the field.

- Enjoy diverse and personalized learning content: publications, lectures, interviews, podcasts, and events.
- Learn from experts with our Curriculum feature, which provides you with a well-organized and comprehensive education.
- Watch your favorite content offline with our app, and stay updated on the latest releases with our notifications.

To regularly receive high-quality educational content and updated on all the courses mentioned in this document, please download for free the Edwards Masters application, by scanning the following QR code

Edwards Masters

International activities

■ Course agenda

A panel of hybrid and on-site courses to interact and learn from top international experts in the field of heart valve surgery.

Explore our educational website, Edwards Masters, for up-to-date information on all the courses organized throughout the year.

Please refer to your sales representative for on-site participation. Registration for virtual participation, if available, will open on [Edwards Masters](#) a few weeks before the date.

Educational activities | International scale

■ Course overview

Aortic and Mitral Highlights

Explore the latest trends in the treatment of valvular diseases thanks to two dedicated courses, one for the aortic valve and the second for the mitral and tricuspid valves.

Format

Round-table sessions to discuss and debate hot topics in the field through interactive presentations, live-in-a-box, and patient case analysis. The course is accessible In-person and virtually.

Target

Early and mid-carrer cardiac surgeons.

Educational activities | International scale

■ Course overview

Immersive course

An advanced course to focus on the latest trends in surgical techniques and approaches to treat mitral, aortic, and tricuspid valve diseases.

Format

A highly immersive training with live 3D surgical procedures as well as interactive surgical videos and patient case discussions.

The course is accessible In-person and virtually.

Target

Cardiac surgeons with advanced valve surgery practices who aspire to improve their technical skills.

Educational activities | International scale

■ Course overview

European Fellows Conference

Reviewing with international leaders both essential theoretical knowledge and current innovations in the field of cardiac surgery.

Format

A mix of interactive presentations on the fundamentals and workshop trainings for a more practical learning experience.

Target

Young cardiac fellows and residents who wish to deepen their knowledge by engaging with an international faculty. The course is only accessible **in-person**, the acceptance is based on **committee review**.

International activities

■ Course overview

Global Cardiac Surgery Residents and Fellows Course

Format

A unique occasion for young cardiac surgeons from all over the world to meet and exchange on their practices, while learning from renowned experts a wide spectrum of topics related to valve diseases

Academic presentations, workshops, and wet labs and a rare opportunity to discover the Edwards Campus based in Irvine, California (museum, R&D labs, manufacturing facilities, etc.).

International activities

■ European-based congresses

Edwards Lifesciences offers different types of Educational activities at the major international congresses.

Please access our **Event Hub** to get **more information and detailed scientific program**.
