Minimally Invasive Mitral Valve Surgery

This course, held by Prof. Dr. Bonaros (Deputy Director of the Cardiac Surgery Department) and cardiac surgeons and anesthesiologists from the Tiro Kliniken Innsbruck team aims to provide participants with theoretical and practical knowledge of minimally invasive mitral valve surgery (MIMVS) through frontal teaching and observation of interventions performed in the operating room.

To offer a more in-depth experience, the number of participants is limited to about 3 attendees from different centers or 5 attendees from a single center.

It is exclusively open to candidates holding:

- Specialization in Cardiac Surgery;
- Specialization in Anesthesia, Resuscitation, Intensive Care and Pain;
- Specialization in Diseases of the Cardiovascular System; or
- the same specializations related to previous denominations/systems.

Dates:

- January 21 – 22, 2025
- April 1 – 2, 2025
- June 24 – 25, 2025

Day 1

08.15 Introduction and training outline

08.30 Case 1 & 2: Two parallel live cases in the OR

Case 1: MIMVS case

Case 2: Fully endoscopic MIMVS case

12.30 Lunch

13.30 Lectures

- Introduction to minimally invasive mitral valve surgery
- Technology and tools for MIMVS (imaging, instruments & perfusion)
- Techniques for minimally invasive mitral repair

19.00 Group dinner

Day 2

08.30 Case 3: Live case in the OR

12.30 Lunch

13.30 Wrap-up of the course, Q&A

14.00 End of course

The content of the course and the dates can be adapted on a case by case basis according to the needs of the participants
