Course Description

This course, held by the cardiac team of **Prof. Klaus Matschke** (Chief of Cardiac Surgery Department) and anesthetists, aims to provide participants with theoretical and practical knowledge of **Minimally Invasive Cardiac LATeral Surgery (MICALAT S) under direct vision** (one access approach), through frontal teaching and observation of interventions performed in the operating room.

The team shows all possible therapeutic options for the aortic valve and possible extensions described as the One Access Concept. This tailor-made treatment is adapted to every individual patient depending on patient's anatomy, physiognomy and surgical risk. In addition, this course is focused on implantation techniques, surgical approaches, product features, patient indication/ selection, echocardiographic evaluation, patient/ clinical benefits, and available clinical data.

To offer a more in-depth experience, the number of participants is limited to about 4 attendees.

Program Director

Prof. Dr. med. U. Kappert

PD Dr. med. K. Alexiou

Prof. Dr. med. M. Wilbring

Dr. med. S. Arzt

Dates

- April, 13-14, 2026
- May, 18-19, 2026
- June, 8-9, 2026
- September, 21-22, 2026
- October, 9-10, 2026
- November, 9-10, 2026

Day 1

- 17.00** Dinner and informal Q&A
- Why perform Minimally Invasive Cardiac LATeral Surgery (MICLAT S) under direct vision?
- Sharing our personal experience

Day 2

- 07.30** Welcome in the hospital
- 07.45** Patient presentation & access routing
- Level-up: How to start in MICLAT S under direct vision?
- Tips, tricks & pitfalls
- 09.00** Case 1: Step by step one-access minimally invasive valve surgery
- 12.00** Lunch break
- 13.00** Case 2: Step by step one-access minimally invasive valve surgery
- 15.00** End-of-course

The content of the course and the dates can be adapted on a case by case basis according to the needs of the participants.
